

School Improvement Partner Network

Are you looking for a School Improvement Partner (SIP) for your special school or alternative provision school? Do you have someone in this role who will:

- Act as a critical professional friend to the school, helping leadership teams with their self-evaluation process, identify priorities for improvement and plan effective change
- Contribute to quality assurance processes and whole school improvement approaches

- Share practice ideas and increasing networking opportunities
- Help leaders stay in touch with current requirements
- Provide information to governing bodies on their school's performance
- Support governors to performance manage their headteacher

The Mulberry Bush runs a network of SIPs. All of our SIPs have completed the Mulberry Bush/Crossfields Institute SIP training, and take part in our annual SIP professional development events.

Please visit mulberrybush.org.uk/outreach/school-improvement-partner to complete a SIP request form or contact Angela Brown on **01865 594700** or email abrown@mulberrybush.org.uk for more details.
