

# Harmful Sexual Behaviour Training

## Who is the training for?

Anybody working with children and young people who may be concerned about harmful sexual behaviour, no matter the context or setting.

## What is included in the package?

A two-and-a-half-hour online training session led by Polly Cheswick, Therapeutic Trainer and Outreach Practitioner at The Mulberry Bush.

## Training

We understand that working with children and young people who may display sexualised behaviour can feel worrying, stressful and frightening. This training aims to support professionals working in any setting or context

to understand the differences between harmful sexual behaviour, problematic sexual behaviour and developmentally appropriate behaviour whilst also reflecting on their own responses and next steps. The possible signs of harmful sexual behaviour will be discussed alongside potential influences on behaviours from a range of factors. Opportunities to collaborate with others and reflect on current practice are included in the session and will allow practitioners to network and garner new skills. The training will also cover signposting to other useful tools and resources.

## How much does it cost?

£50 per person.

For more details or to book this training for your organisation or a space on an open course please contact Angela Brown on **01865 594700** or email **abrown@mulberrybush.org.uk**
